## About Trixio

Tripxio is a SAAS efficiency suite helping tourism operators cover their front and back-office operations and 3rd party integrations. The platform enables small and medium businesses in the tourism sector to digitize their operations, package new and existing offers, create E-commerce websites, accept payments and efficiently run their businesses in this sector.

How Tripxio works

Front Office

Build itineraries

Create websites, apps & booking links

Sell on 3rd party marketplaces & social media

Sell direct to hotel guests

Back Office

Accept payments including instalments & travel savings

Generate booking vouchers

Manage supplier pay-outs & accounts

Track real time productivity & business activity data
